#### PART I--FINANCIAL INFORMATION

#### Item 1. Financial Statements.

Please refer to attached financial statements and schedules.

Item 2. Management's Discussion and Analysis of Consolidated Financial Condition and Results of Operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company's consolidated financial condition and results of operations for the interim period ended June 30, 2018 compared with the interim period ended June 30, 2017. This report should be read in conjunction with the consolidated financial statements and the notes thereto.

## **KEY PERFORMANCE INDICATORS**

Management uses the following key performance indicators to evaluate the performance of the Company and its investee companies:

- 1. **Equity in Net Earnings (or Loss) of Associates.** Equity in net earnings (or loss) of associates is the Company's share in the income or loss of associates, or investee companies accounted for under the equity method. It indicates the profitability of the associates and measures their contribution to the profitability of the parent.
- 2. Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA). EBITDA is calculated by taking operating income and adding back to it the interest, depreciation and amortization expenses. Since EBITDA eliminates the effects of financing and accounting decisions, it can provide a relatively good comparison of the performance of the Company with other players in the industry. It also provides a good measure of the Company's ability to generate cash from operations to cover financial charges and income taxes.
