VIVANT CORP. TARGETS PHP67-B POWER, WATER INVESTMENTS BY 2030

Vivant Corporation (PSE: VVT) is planning to invest approximately Php 67 billion for its energy and water businesses through 2030, reinforcing its long-term commitment to expanding critical infrastructure across the country. Energy will represent 90% of the total or Php 60 billion while the balance of Php 7 billion is allocated for Water.

During its Annual Stockholders' Meeting today, the Cebu-based conglomerate reiterated its plans to expand its total attributable generation capacity to 1,000 megawatts (MW), with at least 30% from renewable energy (RE) sources, aligned with its 30 by 30 target (30% RE in the energy portfolio by 2030). Of the total planned investment, about 78% will be directed toward renewable energy projects as it moves to a more balanced portfolio across conventional and renewable energy assets to help address the country's energy requirements.

Meanwhile, the Company plans to spend its Php 7 billion allocation to grow its portfolio across the water value chain, with around 70% allocated for bulk water supply projects and the remaining 30% for water distribution operations.

Through these initiatives in energy and water, Vivant moves closer to its goal of becoming a major power conglomerate with presence in other industries by 2030 and a major Philippine conglomerate by 2040.

The Company added that its next phase of expansion will focus not only on growing its portfolio, but also on increasing operational control and accountability over the assets it develops and manages.

"Following the strong performance delivered in 2025 and amid the challenges encountered in the first quarter of 2026, we remain firmly committed to achieving our 2030 targets," said Arlo G. Sarmiento, Vivant Corporation chief executive officer (CEO).

Mr. Sarmiento further commented: "Stabilized by our strong foundation of existing investments in power and water, I am confident that our projected Php 60-70 billion in pipeline investments over the next 5 years will allow us to continue to deliver on our mission to bring excellence to industries that improve everyday living. "

Chief Finance (CFO) and Risk Officer (CRO) Minuel Carmela N. Franco added: "Recently, the Vivant Board of Directors approved a dividend declaration of Php 0.6076 per share which represents the payout from the 2025 net income. I am pleased that this year's dividends reflected a 6% year on year increase. As Vivant continues to scale, improving shareholder value shall remain among our top priorities, alongside providing excellent service to our customers."

ADDITIONAL INFORMATION: PROJECT HIGHLIGHTS

- After its successful participation in the Department of Energy's (DOE) Fourth Round of Green Energy Auction (GEA-4) in 2025 through Isla Este Renewables Corporation (IERC) which won a 17.5 MW solar capacity through a project in Bohol, Vivant Energy aims to join the succeeding rounds of GEA to sustain its contribution to the country's energy security.
- San Ildefonso Alternative Energy (SIAEC) solar plant in Bulacan is completed and awaiting final regulatory approvals, with full operations expected to commence within the third quarter of 2026.
- In the fourth quarter of 2025, Vivant acquired a 40% stake in Samal Solar Renewable Energy Corporation (SSREC) which operates a 49-megawatt peak (MWp) solar plant in Bataan with plans for expansion. The solar plant contributed Php 9 million to the Company's 2026 first quarter earnings.
- Vivant Energy was awarded long term contracts for its Palawan plants. These PSAs trigger the expansion of capacity of Delta P Inc. (DPI) in Puerto Princesa from 31 MW to 45 MW and Calamian Islands Power Corporation (CIPC) in Coron and Busuanga from 13 MW to 34 MW.
- To help augment the national concern on energy security raised in the President's State of the Nation Address, the energy business secured a 15-year PSA to help provide 11 MW of dependable power to the Island of Siquijor through Isla Dilaab Energy Corporation (IDEC). Plant construction will commence soon.
- COREnergy has relaunched its brand in 2025 following the regulatory direction of lowering the threshold for the contestable market. Since the brand refresh, the retail arm has already secured a total contracted capacity of 60 MW to date representing a robust 175% increase compared to the previous year.
- In April 2025, Vivant Water, through its wholly owned subsidiary, Vivant Hydrocore Holdings, Inc. (VHHI), signed a joint venture agreement with Metropolitan Cebu Water District (MCWD) to supply Metro Cebu with clean and potable water from its 20 million liters per day (MLD) seawater desalination plant, Isla Mactan Cordova Corporation (IMCC).
- Furthermore, as part of its commitment in addressing the water infrastructure needs in Cebu, the company has begun investing in water distribution with the acquisition of Bantayan Resource Management and Development Corporation (BREMANDCOR) and the commercial launch of Bantayan Island Water Solutions Corporation (BIWSC) earlier this year.
